

## ENVIRONMENTAL POLICY

Coca-Cola Amatil (Aust) Pty Ltd, a leading beverage manufacturer operating across Australia, is committed to understanding and minimising the impacts we may have on the environment across Australia.

Reducing the impact of our business on the environment is a key pillar of CCA's Sustainability Strategy. We do this while continuing to meet the expectations of our consumers and customers for quality and service and providing a safe working environment for all employees.

We believe that all Coca-Cola Amatil (Aust) Pty Ltd employees and those working for or on our behalf have an important role to play in achieving our environmental objectives and targets. We will enable their full involvement by ensuring that all are aware of this Environmental Policy as part of our certified environmental management system and their associated responsibilities under this Policy.

***To this end we will:***

- *Aim to achieve a level of environmental performance, which goes beyond that required for legal compliance and other requirements to which the organisation subscribes;*
- *Include environmental considerations in our annual business plan through the development of environmental objectives and targets, to ensure that environmental management remains an integral part of our operations;*
- *Maintain our ISO14001 certified environmental management system which is based on continuous improvement to ensure it remains relevant to our operations and activities;*
- *Educate and equip our employees and those working on our behalf to identify and act upon opportunities to prevent pollution, and to minimise any adverse environmental impacts and issues associated with their roles and responsibilities;*
- *Identify and implement ways to improve the efficiency with which we use resources including water, energy, packaging, chemicals and raw materials;*
- *Reduce, reuse and recycle resources wherever practicable and ensure that we dispose of our wastes safely and in a manner that minimises the environmental impact;*
- *Minimise dust, gas, odours, vapours and noise emissions in accordance with industry best practice;*
- *Work with our key suppliers and contractors encouraging them to strive to meet the same high environmental standards we impose on ourselves; and*
- *Work with relevant industry bodies, government agencies, business partners, community groups and other concerned organisations, to promote environmentally sustainable behaviours and practices, as they relate to our activities.*
